# Patient Health Questionnaire I

Name \_\_\_\_\_ Date \_\_\_\_\_

Describe your symptoms \_\_\_\_\_

When did the symptoms begin? (mm/dd/yy if possible) \_\_\_\_\_

How did the symptoms begin? \_\_\_\_\_

Please indicate on the diagram where you are experiencing symptoms; Mark as:  
S=Sharp D=Dull A=Aching N=Numbness T=Throbbing W=Weak O=Other

Description:

- Sharp
- Dull
- Ache
- Numb
- Throbbing
- Weak
- Other: \_\_\_\_\_

Frequency:

- Constant (76-100%)
- Frequent (51-75%)
- Occasional (26-50%)
- Intermittent (25% or less)

Average Pain intensity 0=No Pain and 10=Unbearable Pain:

Last 24 Hours: (0) (1) (2) (3) (4) (5) (6) (7) (8) (9) (10)

Past Week: (0) (1) (2) (3) (4) (5) (6) (7) (8) (9) (10)

Are your symptoms affecting your ability to be active?

- No effect
- Some physical restrictions (light duty tasks only)
- Need limited assistance with everyday tasks
- Need assistance often
- Significant inability to function without assistance
- Am totally disabled/impaired

Your Symptoms Are:  Decreasing  Not Changing  Getting Worse

Symptoms Are Worse:  Morning  Afternoon  Night  Increases During Day  Same All Day

What makes symptoms better?  Nothing  Lying Down  Walking  Standing  Sitting  Movement/Exercise  Inactivity

What makes symptoms worse?  Nothing  Lying Down  Walking  Standing  Sitting  Movement/Exercise  Inactivity

Have you been treated for *this* episode?  Y  N If so, by whom?  Chiropractor  MD  Physical Therapist

Other \_\_\_\_\_ When? \_\_\_\_\_

What treatment did you receive? \_\_\_\_\_

Have you been treated for something similar in the past?  Y  N If so, by whom?  Chiropractor  MD  Physical Therapist

Other \_\_\_\_\_ When? \_\_\_\_\_

What treatment did you receive? \_\_\_\_\_

What is your current work status, if employed?  FT  PT  Other \_\_\_\_\_

Physical activity at work:  Sitting more than 50% of the time  Light manual labor  Heavy manual labor  Repeated motion

Has your work status changed because of current symptoms?  Y  N If so, how? \_\_\_\_\_

# Accident and Injury Questionnaire

Name \_\_\_\_\_ Date \_\_\_\_\_

Please check any of the problems below which you are currently experiencing

## Cognitive (Thinking) Problems

- Attention or concentration (mind wanders, easily distracted, difficulty maintaining focus)
- Short-term memory loss, forgetfulness, problems learning new things
- Problems finding words when talking or problems articulating thoughts
- Trouble understanding what is said, problems following or tracking conversation
- Difficulties making decisions and/or solving problems
- Trouble staying organized or planning
- Making more mistakes than usual or not catching one's mistakes
- Slowed thinking, feeling dazed or "fuzzy", being easily confused
- Getting lost, misplacing personal items (keys, cell phone, etc.)
- Problems alternating attention or "juggling" things
- Becoming easily overwhelmed

## Physical Symptoms

- Headache
- Dizziness
- Fatigue
- Problems with coordination, dropping things, bumping into things, losing balance
- Stuttering or slurring words
- Change in sensitivity of hearing, smell, and/or taste
- Tingling/numbness in hands, arms, legs, toes, etc.
- Ringing in ears
- Increased sensitivity to light or sound
- Blurred or double vision
- "Black-outs" or seizures

## Emotional Symptoms

- Feelings of sadness or depression
- Crying spells or weepiness
- Suicidal thoughts or ideas
- Mood swings
- Difficulties sleeping
- Irritability, "little things" getting under one's skin
- Easily frustrated
- Decreased sex drive
- Decreased or increased appetite
- Loss of interest in being around people and socializing
- Loss of interest in hobbies and activities

## Patient Protected Health Information Consent

We want you to know how your Protected Health Information (PHI) is going to be used in this office, along with your rights concerning those records. Before we will begin any health care operations, we require you to read and sign this consent form stating that you understand and agree with how your records will be used.

1. The patient (and/or their legal guardian) understands and agrees to allow this office to use their PHI for the purpose of treatment, payment, health care operations, and coordination of care. As an example, the patient agrees to allow this office to submit requested PHI to the Health, Auto, or Worker's Compensation Company (or companies) provided to us by the patient for the purpose of payment. Be assured that this office will limit the release of all PHI to the minimum necessary for what the insurance companies require for payment.
2. The patient has a right to examine and obtain a patient copy of his or her own health records at any time and to request corrections. The patient may request to know what disclosures have been made and to submit in writing any further restrictions on the use of their PHI. Our office is not obligated to agree to those restrictions.
3. A patient's written consent need only be obtained ONE TIME for all subsequent care given to the patient at this office.
4. The patient may provide a written request to revoke consent at any time during care. This would not affect the use of those records for care given prior to the written request for revocation, but would apply to any care given after the written request has been presented.
5. For your security and right to privacy, all staff has been trained in the area of patient record privacy. We have taken all precautions that are known by this office to assure that your records are not readily available to those who do not need them.
6. If the patient refuses to sign this consent for the purpose of treatment, payment, and health care operations, we have the right to refuse to provide care.

I, the undersigned, have read and understand these consents and I agree to these policies and procedures.

## Informed Consent

Patient Name: \_\_\_\_\_ Date: \_\_\_\_\_

Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.

**Please initial each section as you understand it.**

\_\_\_\_\_ **The nature of the chiropractic adjustment**

The primary treatment used by doctors of chiropractic is spinal manipulative therapy. The doctors in this clinic will use that procedure to treat you. They may use their hands or a mechanical instrument upon your body in such a way as to move your joints. That may cause an audible "pop" or "click," much as you may have experienced when you "crack" your knuckles. You may feel a sense of movement.

\_\_\_\_\_ **Analysis/Examination/Treatment**

As part of the analysis, examination, and treatment, you are consenting to the following procedures:

Spinal manipulative therapy, Palpation, Vital signs, Range of motion testing, Orthopedic testing, Basic neurological testing, Muscle strength testing, Postural analysis testing, Radiographic studies, Therapeutic exercises, Manual muscle stimulation, Inter-segmental traction therapy, Ultrasound, Hot/cold therapies, EMS, and other procedures as your doctor may deem necessary in their best professional judgement.

You have the right to refuse any of these procedures at time of treatment.

You may request another staff member to be present at any time during your appointment.

\_\_\_\_\_ **The risks inherent in chiropractic adjustment & the probability of those risks occurring**

As with any healthcare procedure, there are certain complications that may arise during chiropractic manipulation and therapy. The complications include, but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment. The doctor will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to the doctor's attention it is your responsibility to inform the doctor.

Fractures are rare occurrences and generally result from an underlying weakness of the bone which we check for during the taking of your history and through the examination. Stroke and/or arterial dissection caused by chiropractic manipulation of the neck has been the subject of ongoing medical research and debate. The most current research on this topic is inconclusive as to a specific incident of this complication occurring. If there is a casual relationship at all it is extremely rare and remote. Unfortunately, there is no recognized screening procedure to identify patients with neck pain who are at risk of an arterial stroke.

\_\_\_\_\_ **The availability & nature of other treatment options, and the risks & dangers of remaining untreated**

Other treatment options for your condition may include self-administered, over the counter analgesics and rest; medical care and prescription drugs such as muscle relaxants; hospitalization; surgery. If you choose one of the "other treatment" options, you should be aware that there are risks and benefits of such options and you may wish to discuss these with your primary medical physician

Remaining untreated may allow the formation of adhesions and reduce mobility which may set up a pain reaction further reducing mobility. Over time, this process may complicate treatment, making it more difficult and less effective the longer it is postponed.

By signing below, you state that you understand the above explanation of the chiropractic adjustment and related treatment. You have weighed the risks involved in undergoing treatment and have decided that it is in your best interest to undergo the treatment recommended.

## Patient Rights and Responsibilities

Each patient at North Suburban Healthcare has the right to:

- Considerate, respectful, and impartial care in a safe setting.
- Reasonable access to care with effective communication, including the ability to have support persons present and the ability to receive assistance with physical limitations.
- Make informed decisions in advance of and during care, be involved in care planning & treatment, and to be informed of both expected and possible unanticipated outcomes of care.
- Be able to refuse care and receive information regarding the possible consequences of refusal.
- Expect all communications and records to be private and confidential, except in cases such as suspected abuse and public health hazards when reporting is permitted or required by law.
- Access to information contained in his/her personal clinical records within a reasonable timeframe upon written request and authorization.
- Be informed of charges for services and payment methods available.
- Freely voice complaints without being subject to discrimination, coercion, or reprisal, and to receive a prompt review of and resolution to a complaint.
- Receive a copy of these Patient Rights & Responsibilities. These shall also be posted in patient areas that are easily accessible for review by the public.

Each patient and/or guardian at North Suburban Healthcare is responsible for:

- Providing, to the best of his/her knowledge, accurate and complete information about matters relating to the patient's health
- Following the treatment plan as discussed and agreed with the health care provider
- The patient's actions and outcomes if he/she refuses treatment or fails to follow the care plan
- Being considerate and respectful of staff and other patient's persons, property, and this facility
- Providing all needed information for insurance processing and for ensuring that the financial obligations of his/her care is fulfilled
- Asking questions when he/she does not understand the information given
- Reporting episodes of pain and the effectiveness or lack of response to treatment
- Reporting perceived risks and/or unexpected change in condition during the course of care
- Following all facility rules and regulations.

Following these guidelines helps us ensure you receive the best care available.

All staff is educated annually regarding Patient's Rights & Responsibilities, and copies of this information is available to all staff.

Thank you for your cooperation.

By signing below, I hereby acknowledge that I have read and understand these Rights and Responsibilities.
